

1) *Identification of the substance/preparation and of the company/undertaking:

1.1 Product identifier - and Trade All Purpose Filler (Powder).

Product reference number: 2-08

1.2 Relevant identified uses of the substance or mixture and uses advised against - The material is mixed with water to give a smooth, lump free paste of a "buttery" nature. Suitable for use as a filling compound.

1.3 Details of the supplier of the Safety Data Sheet

Manufacturer/supplier - Ciret Limited, Fulflood Road, Havant, PO9 5AX. Tel: (+44) (0) 2392 457450

Fax: (+44) (0) 2392 457452 e-mail: sales@ciret.co.uk

1.4 Emergency telephone number: As above available only during office hours. English language spoken.

2) *Hazards identification:**2.1 Classification of the substance or mixture (CLP):**

The product is not classified as hazardous according to current legislation.

2.2 Label elements:

Hazard pictogram: None.

Signal word:

2.3 Other hazards: None.

3) *Composition/information on ingredients:**3.1 Substances:**

3.2. Mixtures: Plaster based reinforced with vinyl adhesive and containing set-time modifiers.

Substances presenting a health or environmental hazard within the meaning of the current EC regulations:

<u>Name</u>	<u>EC No</u>	<u>CAS No</u>	<u>Content % range</u>	<u>Classification</u>
-------------	--------------	---------------	------------------------	-----------------------

The product does not contain any hazardous substance within the meaning of the current regulations.

4) *First aid measures:**4.1 Description of first aid measures:**

Inhalation: Clear airways if obstructed. Remove to fresh air.

Skin Contact: Wash well with soap and water. Sufferers of dermatitis should be adequately protected.

Eye Contact: Irrigate with clean water for at least ten minutes and make sure all particles are removed. Seek medical advice if irritation persists.

Ingestion: Wash out mouth with water and drink plenty of water.

4.2 Most important symptoms and effects, both acute and delayed: No data available.

4.3 Indication of any immediate medical attention and special treatment needed: No data available.

5) Fire - fighting measures:

5.1 Extinguishing media: Plasters are non-combustible and inhibit the spread of flame. Treat surrounding materials as appropriate.

5.2 Special hazards arising from the mixture: See section 10

5.3 Advice for fire-fighters: Use protective equipment appropriate for surrounding materials and dried film.

6) *Accidental release measures:

6.1 Personal precautions, protective equipment and emergency procedures: Wear suitable protective equipment (see section 8).

6.2 Environmental precautions: Small spillages as normal waste. For disposal of large spillages dispose of according to section 13. In disposing of this material to sewers, particularly in solution, account must be taken of local legislation that may apply regarding BOD level of effluents.

6.3 Methods and materials for containment and cleaning up:

6.3.1 For containment: Recover the spillage in a dry state if possible, control and suppress dust formation, vacuum or sweep up into bags. Minimise generation of airborne dust. For wet product, allow material to dry and solidify before disposal.

6.3.2 For cleaning up: The product can be slurried by the addition of water but will subsequently set as a hard material. Keep children and animals away from clean-up operation.

6.4 Reference to other sections: Refer to protective equipment in section 8.

7) *Handling and storage:

7.1 Precautions for safe handling: Appropriate personal protective clothing (see section 8) should be used whilst handling.

7.2 Conditions for safe storage, including any incompatibilities: Stack in a safe and stable manner. Store in dry conditions.

7.3 Specific end use(s): Refer to label on the container.

8) *Exposure controls / personal protection:

8.1 Control parameters: Dust

Occupational Exposure Standard (OES)

5 mg/m³ (Respirable) 8hr TWA

10 mg/m³ (Inhalable) 8hr TWA OES.

8.2 Exposure control:

8.2.1 Appropriate engineering controls: Where reasonably practicable dust exposures should be controlled by engineering methods and ventilation.

8.2.2 Personal protective equipment:

8.2.2.1 Eye and face protection: Use a dust mask (EN 149 Class FFP) if dusting occurs and also if sanding down by machine or sanding large areas.

8.2.2.2 Skin protection: To avoid skin contact with wet product wear impermeable gloves, protective overalls and footwear. If powder or splashes are likely wear safety goggles to BS 2092.

8.2.2.3 Respiratory protection: Suitable respiratory protection should be worn to ensure that personal exposure is less than the Workplace Exposure Limit (WEL).

8.2.2.4 Thermal hazards: Not applicable.

8.2.3 Environmental exposure controls: Refer to section 12 & 13.

9) Physical and chemical properties:

Appearance	: Off white fine powder.
Odour	: Characteristic.
Odour threshold	: Not determined
pH	: Not determined
Melting point/freezing point	: Not determined.
Initial boiling point and boiling range	: Not determined.
Flashpoint (°C)	: Not determined.
Evaporation rate	: Not determined.
Upper/lower flammability or explosive limits	: Not determined.
Vapour pressure	: Not determined.
Vapour density	: Not determined.
Relative Density	: Approximately 0.65 g/cm ³
Solubility (ies)	: Miscible with water.
Partition coefficient (n-octanol/water)	: Not determined.
Autoignition temperature	: Not determined.
Decomposition temperature	: Not determined.
Viscosity	: Not determined
Explosive properties	: Not determined.
Oxidising properties	: Not determined.

10) *Stability & reactivity:

10.1 Reactivity: Stable.

10.2 Chemical Stability: Stable.

10.3 Possibility of hazardous reactions: None known.

10.4 Conditions to avoid: Humidity and moisture during storage.

10.5 Incompatible materials: None known.

10.6 hazardous decomposition products: Not determined.

11) *Toxicological information:

11.1 Short Term Effects – Health effects: Essentially non-toxic. No specific health warnings.

11.1.1 Eye Contact – Short term irritation.

11.1.2 Skin – Drying/defatting of skin.

11.1.3 Ingestion – Not determined.

11.1.4 Inhalation – Not determined.

11.2 Chronic Effects – Not determined.

12) *Ecological information:

12.1 Toxicity: The dry product is not expected to be hazardous to the environment.

12.2 Persistence and degradability: Not determined.

12.3 Bioaccumulative potential: Not relevant. After hardening the product presents no toxicity risk.

12.4 Mobility: Not determined.

12.5 Results of PBT and vPvB assessment: This product is not identified as a PBT/vPvB substance.

12.6 Other adverse effects: Avoid contaminating watercourses.

13) *Disposal considerations:

13.1 Waste treatment methods: Dispose of contents/container to a waste disposal site in accordance with local regulations.

14) Transport information:

Special Carriage precautions: Not classified as hazardous for transport.

15) *Regulatory information:

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

All components are listed as existing substances.

15.2 Chemical safety assessment:

A chemical safety assessment has not been carried out for this product.

This data sheet does not constitute a user's assessment of workplace risk as required by HSW act, COSHH, Management of Health and safety at Work regulations, or other health and safety legislation.

16) *Other information:

References: HSC Approved Supply List, Croner & Supplier raw material Safety Data Sheets.

The information supplied in this safety data sheet is, to the best of knowledge, true and accurate, but any recommendations or suggestions made are without guarantee since the conditions of use are beyond our control. The data contained in this safety Data Sheet has been supplied as required by the Commission Regulation (EU) 453/2010 for the purpose of protecting the health and safety of industrial and commercial users who are deemed capable of understanding and acting on the information provided.

Please ensure that it is passed to the appropriate person(s) in your company, who are capable of acting on the information.

Last revision February 2012. Revised sections indicated *.
