

ENVIRONMENTAL POLICY

Ciret Limited is part of the **Storch-Ciret Group**, the European leader in the painting and decorating tool industry.

We specialise in importing products related to the decorating trade and providing a service to companies by distributing these across trade, retail & DIY sectors of the industry.

We have made a commitment to manage activities to protect the environment. To support this we operate an established Environmental Management System (EMS) that meets the requirements of ISO 14001 2015

Operating to this standard enables us to manage our significant environmental aspects, identified as:-

- Use of raw materials
- Waste generation and management
- Energy Use
- Emissions to atmosphere

Our EMS is particularly focused on:-

- Managing activities and processes to prevent pollution and protect the environment.
- Ensuring compliance with legal or other requirements relevant to our business.
- Minimisation of significant aspects through operational control and improvement objectives.

All staff are made aware of this policy via internal training and we also seek to ensure it is publicly available. Copies are available on request.

Mark Carpenter
Managing Director
